MAINTENANCE NOTES

The WHA will collect and properly dispose of medical waste, "sharps" in approved containers. Sharps should be placed in puncture resistant containers, such as metal/plastic coffee container or plastic laundry jugs.

Containers need to have their tops on and securely in place.

For the safety of tenants and children, these containers

"shall not" be

placed near any maintenance building doors. Please hand

these containers

directly to the maintenance staff at your site, during

regular WHA business hours, for proper safe disposal.
