MAINTENANCE NOTES

The WHA will collect and properly dispose of medical waste, "sharps" in approved containers. Sharps should be placed in puncture resistant containers, such as metal/plastic coffee container or plastic laundry jugs. Containers need to have their tops on and securely in place. For the safety of tenants and children, these containers "shall not" be placed near any maintenance building doors. Please hand these containers directly to the maintenance staff at your site, during regular WHA business hours, for proper safe disposal.

Please keep in mind that if there are issues with things being broken or not working properly in your area, there is no way for Maintenance to know unless you call the work order in. Even if you think someone else may have called it in, please take the time and call it in as well. Thank you!
